Game Experience

Cheyenne Mountain Entertainment - Senior World Builder – Aug 2008-Present

Currently in progress

Stargate Worlds

Designed and built two levels, NPC population/spawning, for 9 levels, laid out proprietary cover system on dozens of levels, created and maintained documentation, gameplay testing.

High Voltage Software - Designer – 2006-2008

Unannounced Tactics Game

Still covered by NDA

Source material research, assisting the initial core game-play design, rapid prototyping, scripted game play and AI behavior, created and maintained documentation, responsible for 4 single player levels and 12 multi-player levels.

Flame-Sim by Flame Simulations LLC, a High Voltage Software subsidiary – Level Designer - 2007

Built the initial prototype level, made extensive research into firefighting techniques and equipment, assisted Lead Designer in game design documentation, provided initial level design/fire incident customization, level population, scenario implementation, vehicle and NPC pathing, designed in game communication system, created UI mockups.

America's Army: True Soldiers by High Voltage Software – Level Designer - 2007

Military research, demonstrated proper military techniques, formatted information for in-game database.

Ghost Recon PSP by High Voltage Software – Level Designer – 2006 -2008

Co-designed coop and competitive multiplayer, built four of twelve levels in the single player campaign, enemy pathing, object placement, gameplay balance, asset development, scripting/triggers, designed menu system, created and maintained documentation, created UI mockups.

The Guildhall@SMU- Level Design – 2004-2005

Brothers in Arms by Gearbox Software

Lip-sync for French localization, coordinated work schedule with producer, tested and provided game feedback for three levels of game play under direction from producers.

Kompressor [Half Life 2 Project] Student Project – Level & Game Designer

A multiplayer racing game set in the German countryside.

Designed & documented Core game play, built twenty world models including breakable objects, designed and built thirty-nine pre-fabricated buildings for backgrounds, built one quarter of level detail.

The Hunt [Never Winter Nights project] Student Project – Level Designer

A single-player action heavy role-playing game.

Nominated for 2006 Independent Games Festival "Best mod in Neverwinter Nights category", did concept for three levels, designed and implemented twelve sub-quests several of which are branching, extensive scripting & dialog work, created new encounter system using in engine assets that was not dependent on player level, created a generic dialog system for NPCs that changes based on player activities, responsible for major sections of game play.
